Minnesota INTERFAITH POWER & LIGHT

PETITION: People of Faith for 100% Renewable Energy

Dear Legislators,

As people of faith across many religious traditions, we are united in our support for a 100% equitable & clean energy future for Minnesota.

Today, the next big thing is clean energy. Wind and solar power is being made here and now – across Minnesota, by Minnesotans. Our neighbors are freeing us from the fossil fuels that pollute our air & water and damage the climate. **We should decide how we power our lives**. But profit-driven fossil fuel corporations benefit from having Minnesota import dirty coal, oil, and gas. These special interests put corporate profits first, over the interests of the people of Minnesota, so we need to step up and take responsibility for the future we're all a part of.

That's why people of faith across Minnesota are all in for the 100% Campaign. Rabbis, imams, priests, pastors, deacons, elders, among many people of faith and conscience support this statewide, multi-racial, intersectional campaign to build an equitable clean energy economy that works for every Minnesotan.

We urge you to support 100% renewable energy and commit Minnesota to a clean and equitable future.
